Background

The forum will focus on theme “**Financial Inclusion in SADC - The Role of DFIs**”. The role of development finance institutions as critical drivers of the implementation of the SADC Financial Inclusion Strategy is well recognised.

In this regard, the objectives of the forum are to explore the status of financial inclusion in the SADC region, and the policy initiatives at national and regional level, put in place to foster these developments.

The Forum examines case studies of experiences and practices from the SADC region, and also draws on the research carried out in this field. In particular, the Forum looks at the role that DFIs have played in this process, and the specific policy initiatives that can be put in place to foster their enhanced contribution to this process.

The programme also looks at the SADC policy and action plan on financial inclusion, and the role of the DFI Network and the DFRC in it.
